Abstract.

Survey - Resurvey - (South Kanara) - Old Kasaragod Taluk - Treatment of resurvey encroachments on assessed wastes - Orders passed.

Revenue Department.
G.O. No. Mis. 2326, dated 4th October 1928.

Read the following:-

(P) G.O. No. 2044 Revenue, dated 3rd September 1928. Mis 874 (P)

From the Board of Revenue, Mis.No.3112, dated 21st September 1928.

ORDER.

The Board of Revenue is informed that the orders issued in paragraph 1 (b) of G.O.No.2044 Revenue, dated 3rd September 1928 apply to all cases in South Kanara District of "resurvey encroachments" (viz. the excess areas that purport to have been found at the resurvey) whether such excess areas are in poramboke or assessed waste.

2. In its reference read above, the Board of Revenue has stated that while it may not be fair to collect back assessment and site value in respect of encroachments on poramboke, which are not likely to be big, back assessment and the value of the land may be levied in the case of encroachments on assessed waste of over 5 cents in accordance with the District practice. The Government consider that the relevant criterion to be adopted in these cases is not whether the so called encroachment is big or small but whether it i an encroachment at all. What the Government intended by their orders was that the excess areas found at the resurvey should not be treated as encroachments merely on the basis of the old survey and resurvey records. Where there are other records or satisfactory evidence proving the encroachment, the case is different and the orders in question do not apply. The Board of Revenue is requested to issue instructions accordingly.

3. In regard to the encroachments on Kumaki land and the

the collection of back assessment referred to in the Special Settlement Officer's report, R.O.C.No.380 B & C./28-3, dated 25th August 1928, the Government await the report called for in their Memorandum No. 2768 E/28, dated 24th September 1928.
